Great Scholarship Opportunities!

The STATESS Project
Managed by Dr. M. Shah, Dr. X. Li, Dr. N. Lobo, and Dr. B. Moore
IS LOOKING FOR QUALIFIED STUDENTS!

The Department of Mathematics and the School of Electrical Engineering and Computer Science are pleased to offer 20 scholarships per year in the range of $4,000 to $10,000 for first year undergraduate and transfer students and first year graduate students in Mathematics and Computer Science as well as in other Science, Technology, Engineering, and Mathematics (STEM) fields, through a project funded by the National Science Foundation. These scholarships are renewable up to four years, and they are intended for students that might not have the opportunity to attend university otherwise. Scholarship recipients will be privileged to several resources and activities that are intended to ensure the student’s success in completing their undergraduate or graduate degrees.

The Goals:

- To recruit and attract students into STEM fields, and cultivate proficiency in STEM fields.
- To provide opportunity and support for academically talented, financially needy students.

The Activities:

Each scholarship recipient will be assigned a faculty mentor, who will meet with students monthly to help them develop a program of study, and a peer mentor, who can offer advice and encouragement. All students will participate in various group and individual activities and seminars given by university faculty and industry professionals.

Who Can Apply?

- US citizens or permanent residents
- Enrolled full time for a degree in a STEM field
- First year freshman, transfer, or graduate student at UCF
- At least 3.25 GPA and 1250 score on the SAT or GRE
- Qualify for FAFSA Student Aid

How to Apply: Please visit http://server.cs.ucf.edu/statess/ to apply online. More information on STATESS project activities can be found at www.math.ucf.edu/statess.

The deadline for applications is February 28, 2010, and decisions on scholarship recipients will be made by March 15, 2010.
