

Report Meeting Week 9

Benjamin Mears

TRECVID High Level Feature Extraction

Finishing up...

- This week
 - Finished website
 - Worked on paper
 - Made sure code was running properly

Finishing up...

- Still left to do...
 - Ensure XML format is correct
 - Actually submit the runs
 - Wait for the results and finish the paper

Top 5 things I Learned this summer

- 5) Computer vision researchers like to make equations look as confusing as possible
- 4) A \$70 Wal-mart mountain bike is not meant to be ridden 500+ miles
- 3) Every topic I learned in math that I never thought I would use is used in computer vision
- 2) Dutch television is not the most entertaining form of media
- 1) 95 degrees and sunny is a thousand times better than 0 degrees and snowing
